SUMMARY

Aspiring Machine Learning Engineer skilled in Python, machine learning, deep learning, and statistical analysis. Experienced in developing predictive models, end-to-end ML pipelines, interactive dashboards, and data-driven web applications. Focused on applying scalable, reliable AI solutions to practical business problems.

EDUCATION

Amrita Vishwa Vidyapeetham	B.Tech in Artificial Intelligence and Data Science CGPA: 7.0/10	2024–2028
Tirumala Junior Kalasala	APBIE (12th Board) — 95.5%	2022–2024
Tirumala EM High School	Board of Secondary Education — 94.6%	2021–2022

INTERNSHIPS

Data Science and Analytics Intern — Future Interns 2026

- Performed data preparation, exploratory data analysis, statistical modeling, and dashboard development
- Built end-to-end Python analytics workflows from data collection through visualization and deployment
- Earned a Letter of Recommendation for professionalism, technical growth, and successful project delivery

PROJECTS

InScript AI — Intelligent Handwriting Generation Platform May 2026

- Built a responsive handwriting generator with live preview, Canvas API rendering, and customization
- Added ruled-paper generation and jsPDF export; optimized HTML5, CSS3, and JavaScript performance (GitHub)

Business Sales Performance Analytics Dashboard Jul 2026

- Built a Streamlit dashboard for sales, profitability, regional trends, and key performance indicators
- Used Pandas, NumPy, Matplotlib, and Seaborn for EDA, statistical analysis, and actionable insights (GitHub)

Marketing Funnel Analysis & Customer Segmentation Dashboard Jul 2026

- Built a Streamlit and Plotly dashboard to analyze funnel conversion and campaign drop-off
- Applied EDA and clustering to the UCI Bank Marketing dataset for customer segmentation (GitHub)

ACHIEVEMENTS

Internship Completion: Data Science with Python, SmartED Innovations Jun 2026

Course Completion: Data Science with Python, SmartED Innovations Jun 2026

Course Completions: DataCamp — Reinforcement Learning from Human Feedback, Introduction to LLMs in Python, and Introduction to Deep Learning with PyTorch Feb–Mar 2026

Course Completions: MathWorks Training Services — MATLAB Onramp and Introduction to Linear Algebra with MATLAB Apr 2025

Certificate of Participation: Nitro-Stack Hackathon, Team Thunder Bolts Jul 2026

Certificate of Achievement: Premiere Pro Basic to Advanced 2026, Plan At B Dec 2025

TECHNICAL SKILLS

Programming:	Python, SQL, JavaScript, MATLAB
Machine Learning:	Scikit-learn, TensorFlow, Keras, PyTorch, XGBoost
Data & Visualization:	Pandas, NumPy, Matplotlib, Seaborn, Plotly, Streamlit
Data Engineering:	Apache Spark, PySpark, Kafka, Hadoop, PostgreSQL
Web & Development:	HTML5, CSS3, Flask, Django, REST APIs, Git, GitHub, Jupyter, Colab
Core Competencies:	EDA, Feature Engineering, Classification, Regression, Clustering, Model Evaluation, Cross-validation, Hyperparameter Tuning

EXTRA-CURRICULAR ACTIVITIES

- Pursue self-directed learning in artificial intelligence, machine learning, data science, and web development
- Build and document practical data-driven projects on GitHub, applying analytics to business problems
